

Broken Arrow Math Update

Thursday, May 29, 2014

Resources

Professional Development:

Applications for Class 1 of OKMath and OKSci Leadership Are Now Open!

OKMath and OKSci Leadership was piloted by the Oklahoma State Department of Education in 2013-2014 to create and support a dynamic network of Oklahoma Math and Science educators. OKMath and OKSci Leadership selects, challenges, develops and educates Oklahoma math and science educators who have demonstrated an interest in leadership skills related to mathematics and science education.

If you are interested in participating in this exciting program, please complete the application by 5:00p.m. on June 9. Please see the attachment for more details and visit https://www.surveymonkey.com/s/okmath_oksci_class1 to access the application. (Information attached).

June 13 - OCTM's Summer Conference in Tulsa, OK. Click on the link for details and teachers are responsible for the minimal registration cost. <http://www.okctm.org/ConferenceReg.html>

June 16 – K20 Center is offering a full-day session on embedding literacy in all content areas with content specific material in the afternoon training. Registration information is located at http://elaokteachers.com/?attachment_id=1174.

June 20 - OSU's 3rd Annual STEM Teacher Institute (K-8)
<http://education.okstate.edu/node/438>

July 15-17 - OSDE's Vision 2020 conference offers content specific sessions to correlate with the upcoming transition to OAS implementation this next school year. The goal is to have sessions focusing on: statistics for middle school and Algebra I or Algebra II curriculum, trigonometry for Algebra II, rigid motions in Geometry, along with other general information relating to all areas. Registration information is below with session details coming soon.
