ARE YOU READY TO
CHANGE THE FUTURE?

THE VANGUARD ACADEMY OF BROKEN ARROW

The Vanguard Academy of Broken Arrow is a cutting-edge building that serves as a common room of students at grades 9-12 who are innovative thinkers and solution-seekers ready to solve tomorrow’s problems today. The Vanguard Academy provides innovation in what we call student with educational experiences that are meaningful and career-focused while reflecting the high school climate that we all know and love. At the Vanguard Academy, we focus on finding, not grading. Our educational experiences are designed to equip students with a “toolbox for life” that is focused on creativity, critical thinking, and problem-solving. Our goal is to create a community conscious and globally aware society, one innovator at a time.

The Vanguard Academy is for students who seek opportunities to follow their passions, those who help people and the world become better versions of themselves, and those who are learning differently. Vanguard Academy programming is open to all students and programs available are designed from learning about diverse storylines to studying renewable energy.

THREE OPTIONS FROM WHICH STUDENTS CAN CHOOSE:

1. INNOVATIVE ELECTIVE PROGRAM

- Full-time, project-based learning program for students in grades 9-12. Students earn grade-level credits through interdisciplinary electives and course credits through a personalized learning plan. Students are deep into content which allows them to dive into content which allows them to dive into the topic of interest.
- Students are encouraged to think outside of the box and explore opportunities to work with the greater community on projects. This is an ideal environment for students who wish to pursue learning experiences during their senior year.

For the 2023-2024 school year, after-school programs will be available to full-time and part-time students only. Students must submit an application by application deadline.

2. WANT TO DIVE DEEPER INTO INNOVATION?

- Students may choose to learn more by participating in one of our electives.
